

POLISH

WORK READINESS SERIES

PROGRAM PURPOSE

Polish instills young people with knowledge of workplace expectations interview techniques and develops competencies in a range of 21st century skills.

PROGRAM OUTLINE

Polish is designed to leave participants feeling more motivated and inspired to achieve positive outcomes when they transition into the world of work, further education or training. The program equips participants with a range of 21st century skills, which are key to ensuring they thrive during the post secondary school transition. Consultation with industry partners has been crucial in the development of this program and industry participation in program delivery adds even further real-world relevance.

FOCUS AREAS

First impressions · Personal brand · Interview techniques
Networking skills · Communication skills
Working effectively within a team

"I feel as if my future is brighter after today. I feel more motivated to work and do well in schooling. Hearing what adults had to say about their work which they love makes me inspired to work hard to be in a workforce I am passionate about. I feel confident in going for that job, using the people skills I've been taught."

Student, Maryborough Education Centre
