

MyRoad

Empowering young women through online mentoring.

One in four female students believe boys will have more career opportunities after leaving school.

Many young women may not understand or know about career options available - or have the confidence to chase them.

Research shows that having a mentor can be a game changer. Young women with a mentor or role model say that mentoring can positively influence their career path.

MyRoad empowers young women to prepare them to make decisions about their future.

Trained volunteers from diverse industries and backgrounds increase the career awareness of young women. Regardless of your location across Australia, MyRoad can bring career mentors and young people together.

Lock in your free MyRoad session

Ready to book a MyRoad session?

1. Head to ebeacon.net.au/myroad to book a two-hour timeslot that suits you
2. Let us know how many young women are in your session
3. Book a venue or classroom to host the session
4. Organise one computer for every 5 students

Anything else you need is provided by us. And our friendly team are on hand to give you any technical support you might need.

What does a MyRoad session involve?

In each MyRoad session a fully trained volunteer mentor guides young women through six modules.

Modules are aligned to the Australian Curriculum for General Capabilities and Work Studies.

The MyRoad Modules

- 1. Imagine your Future – Motivation:** Encouraging young women to think about career decision-making
 - 2. Picture your Future – Curiosity:** Encouraging young women to be curious about potential future pathways and possibilities
 - 3. Plug into your Future – Digital Communication:** Focusing on the value of online presence and digital communication
 - 4. Connect your Future – Effective Relationships:** Focusing on the value of positive relationships in the workplace
 - 5. Live your Future – Resilience:** Building the resilience to face workplace setbacks
 - 6. Celebrate your Future – Celebration & Reflection:** Evaluation, feedback and learnings
