Industry Live 2020

Join Beacon Foundation online for a series of live career exposure events, delivered via videoconferencing.

We invite industry panellists to share their stories, top tips for success and answer questions from school students in Years 6 to 12 across Australia in a discussion led by a facilitator.

Why Industry Live?

Industry representatives can't always come together at short notice to answer questions, share ideas, provide career education and insights to help inspire students' future pathways.

This series of events gives students the opportunity to hear first-hand from a wide range of people in different jobs with diverse pathways to those jobs.

- Preparing for your career
- Diverse career pathways
- Future growth and job sectors
